

3 Vital Ways HR Can Strengthen Cybersecurity

by [Mammoth Team](#) on April 10, 2017

If an unauthorized person acquires or accesses an employee's personal information, *do you know what to do?*

The news is rife with data breaches and hacks. HR professionals are under more scrutiny than ever when it comes to the security of the sensitive information they maintain.

This free, 30-minute webinar will help you be aware of ongoing requirements to safeguard employees' private personal information, and help you understand the role that HR plays in strengthening your organization's cybersecurity.
